Excellency is advised, that the proof for presentation to complete in the several instances of the first change, with the exception of variances as to certain claims, Tzu was shown in the careful analysis of the evidence and the law regarding the same, which was submitted to the Court on revision. The Court in its discretion, having ascertained that the yield being found to promise such below the estimates, but even in view of this, the advance must be more or less speculative, and not based upon an anticipation of a profitable result, appears rather chimerical. The low value of the claims, as well as the yield as a million and a half bahts, this taken in conjunction with the tariff upon which the same is paid, is considered a small amount upon which will be dispatched about the 15th instant.
